

# NCCS National Championship Structure

- Tournament Director may be the NCCS Committee member overseeing respective work team or a designee of the Vice Chair/NNC
- Host site's main responsibility will be as Director of Operations
- NNC will be responsible for all registration materials and monies and will work directly with the host site on all branding/sponsorship requirements
- The Tournament Director is responsible for making recommendations to Vice Chair/NNC for the positions of Director of Officials and Director of Competition. All other volunteer positions will be approved by the Tournament Director via an application process, with input from the Directors of Officials & Competition.
- The NCCS philosophy regarding volunteers is to provide an equal opportunity for NIRSA members to participate as volunteers at our events.
  - Initial points of entry will come from both the NCCS Committee (including sport-specific work team) and the respective tournament directors of regional sites.
  - At times, there may be a technical need to reach outside this initial entry point. This may be accomplished with consensus from the Tournament Director, NCCS Vice Chair, and NNC.
- All event assessment will be coordinated by the NCCS Committee member that oversees assessment, in collaboration with the NNC and the respective Tournament Director.
- For applicable sports, the Tournament Directors will make a recommendation to the Vice Chair on the protocol for awarding officials' bids to the national championship tournament.
- It is recommended to have the NSC fund the cost of travel for one NNC member, Vice Chair, Tournament Director, Director of Competition, and Director of Officials; lodging for the NNC member and Vice Chair should also be the responsibility of the NSC.
- The lodging costs for the Tournament Director, Director of Competition, Director of Officials, and all other staff should be budgeted by the Host Committee.
